INTERNSHIP

Duration

How long the Internship goes?

Internship vary in Monthly weekly bi-weekly and Days basis
But, generally most Internship last about 4 weeks in a month

Summer internships: Most students complete a summer internship between years of undergraduate or post graduate education. These internships tend to last 10 to 12 weeks, and happen during the summer months

Internships during the academic year: These internships take place during the semester and may last closer to 12 to 16 weeks. Because you complete them while taking classes, you likely won't work full-time (as you might during the summer or winter) but rather one to a few days a week.

Internship length can also depend on the type of company and field you want to work in.

INTERNSHIP
